

## **Mozzarella & Tomato Toastie**

Here's how you can quickly put together a stunning toastie thats packed with flavour and a joy to eat.

You will need:

Bread (preferable not fresh but a day old is perfect).

Cheese (I have used Mozzarella but you can of course use any cheese you wish).

Vegetables, herbs and flavourings. (i've used tomato and chives).

I haven't buttered my bread - as i'm always conscious of healthy eating and therefore try and leave out what won't be missed and here with the addition of fresh tasty Mozzarella you don't miss the butter.

Pile the cheese on the bread.

Then top it off with fresh sliced tomato and chives.

Place the other slice of bread on top and place in a sandwich toaster.

When the sandwich is crispy on the outside and nicely browned, slice and serve.  
Serve with a small salad and enjoy the warm melting cheese as it oozes from the sandwich.
